Week 2:

#### Inquiry Project

Ever wanted the chance to learn more about a topic of interest to you? Now is the chance. Think about something that you are curious about. Create at least 3 questions about that topic that you would like to find answers for. These questions shouldn't be easily answered by doing a Google search. They should require looking in more than one place to find or form your own answers. Your end product can take many forms: a podcast, story, report, newspaper article, presentation, video, etc. It should showcase new learning for you. Make sure you include where you got your information from.
